Subject: Sioux City Sewer Use Ordinance-recent updates history

Paul, I apologize for the delay returning your request. I was out sick the end of last week. Legal has provided both the 2016 version of the Sewer Use Ordinance and the current ordinance. At the end of each section there is reference to the last year that section was updated. The date that I last see the Council approving changes to the Sewer Ordinance was 6-5-2107.

If I have not effectively communicated your request, I defer to Justin Vondrak and our Legal Department to assist and clarify.

Let me know if you need anything else.

Sincerely,

Craig Samek
